12 January 1971

MEMORANDUM FOR: Director of Basic and Geographic Intelligence  
SUBJECT : CIA Requirements for Military Maps and Charts  
1973-1980

1. Attached is a draft of the coordinated CIA requirements for military maps and charts prepared in response to the annual DIA solicitation. In accordance with DIA instructions, they express our anticipated map needs without regard to the availability or adequacy of existing coverage. The CIA requirements will be incorporated with DoD requirements and furnished to the map production agencies of the Military Departments as a basis for programming activity.
2. The most significant changes in this year's submission are the deletion of the 1:50,000 requirement along the Amur River and for a large portion of the eastern Inner Mongolia/Manchuria region. There is a small extension of Category I near Hu-Ho-Hao-T'e in central Inner Mongolia. Fairly large areas of 1:250,000 coverage were dropped in Africa and South America.
